

Healthier Dining Programme

The Healthier Dining Programme (HDP) is an initiative by the Health Promotion Board (HPB) to encourage F&B businesses to provide healthier food and drink options. Participating F&B food stalls have to provide at least 1 “**lower in calories**” food type (identified by HPB to be less than 500 calories), and/or use healthier ingredients (such as offering **wholegrain options** and/or use **healthier oil**); whereas drink stalls need to promote **lower-sugar drinks** and **cut fruits**.

HPB’s Healthier Dining Partners can be easily identified by the distinctive Healthier Choice identifiers on their respective store fronts (see Figure 1). The identifier indicates that the dish is a healthier dish which may be “**lower in calories**” or has been prepared with healthier ingredients (**wholegrain options**, **healthier oil**).

Figure 1 – Identifiers for Healthier Dining Partners

Here is the list of the hawker and coffeeshop stalls offering healthier food options.
